

Overview

Laerdal Face Shield

Shop

Our most value-priced, convenient to carry single-use CPR barrier.

Simple and convenient

The Laerdal Face Shield features a high-quality Technostat filter with CPR instructions printed on it, and gives providers the confidence to begin CPR. The small packaging fits into wallets, pockets and hand bags for readiness whenever an emergency should occur. The Laerdal Face Shield comes as either as key chains, sold in packs of 25, or as disposable sleeves, sold in packs of 50.

Practicality

The Laerdal Face Shield is the simple, low-cost solution for CPR Barrier devices. The protective Laerdal Face Shield helps providers overcome hesitation to start resuscitation by preventing direct contact with the victim's mouth, nose and face.
