

Prestan Family CPR Manikin with Indicator

Sleep Mode/No Power	○ ○ ○ ○
1 st Full Compression (Wake mode/LED Test Mode)	● ● ● ●
CPM* < 60	○ ● ○ ○
CPM* 60 – 79	○ ○ ● ○
CPM* 80 – 99	● ○ ○ ○
CPM* 100 - 120	● ○ ○ ●
CPM* > 120	● ○ ● ●
Compressions Stopped	○ ● ○ ○

*CPM = Compressions per minute
● = Flashing

Achieve this with Prestan Professional's revolutionary new CPR manikin with Rate Monitor. The LED indicators allow for instant feedback to both instructor and student regarding their rate of chest compressions. Instructors can monitor several students quickly and easily, while students themselves can visually gauge their compression rate reinforcing more practice time using proper technique.

Features include:

- Realistic looking manikin with a pinch-able nose and fully formed neck portion that allows for a carotid pulse check.
- Easy-to-insert face shield lung bag speeds setup of the manikin.
- Face shield is secured so it won't slip and there's no need for adhesives.
- Realistic skin resists dirt, grime and grease.
- Adequate upper chest sizing facilitates AED training.
- Visual anatomy 'landmarks' such as a navel and ribcage allow for practice of the Heimlich maneuver and reinforce proper hand placement for compressions.
- Head-tilt illustrates how to open the airway and allows each student to observe a true chest rise when proper head-tilt chin-lift technique is used.
- Clicker mechanism increases student's confidence in administering adequate compressions.
- Manikins are capable of being cleaned and decontaminated per CDC guidelines.
- The PRESTAN Professional Collection combines one Professional Adult, one Professional Child and one Professional Infant manikin in one single collection.
- Fully compliant with current industry guidelines, including the most recent AHA Integrated Feedback.

Single Pack Available:

1. PRESTAN Adult CPR Manikin
2. PRESTAN Child CPR Manikin
3. PRESTAN Infant CPR Manikin

Professional Adult Series 2000 Manikin

*Mobile device not included

The same high quality, realistic Professional Adult Manikin is now available with Advanced Feedback including Visual Chest Rise, Rate, Depth, Recoil, Ventilation, Hands-Off Time, and Chest Compression Fraction via a Bluetooth® enabled PRESTAN CPR Feedback App available on both Apple and Android devices.

Fully compliant with current industry guidelines, including the Heart and Stroke Foundation of Canada's February 2021 Use of Feedback Devices in Resuscitation Training Courses Policy and the most recent AHA Integrated Feedback Directive.

Available in medium or dark skin tones and in Single or 4-Pack configurations.
